

## GETTING TO KNOW YOUR CURLING IRON

Model CD106BLC

## IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

### READ ALL INSTRUCTIONS BEFORE USING

### KEEP AWAY FROM WATER

**DANGER** - Any appliance is electrically live even when the switch is off. To reduce the risk of death by electric shock:

1. **Always unplug appliance immediately after using.**
2. Do not use while bathing or in the shower.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.
4. Do not place in, or drop into, water or other liquids.
5. If an appliance falls into water, unplug it immediately. **Do not reach into the water.**

**WARNING** - To reduce the risk of burns, electrocution, fire, or injury to persons:

1. **This appliance should never be left unattended when plugged in.**
2. **Do not pull, twist, or wrap line cord around appliance.**
3. This appliance should not be used by, on or near children or individuals with certain disabilities.

## USER MAINTENANCE

Your curling iron is virtually maintenance-free. No lubrication is needed. Keep all vents and openings clear of dirt and dust. If cleaning becomes necessary, disconnect the unit from the power source, allow to cool and wipe exterior with a cloth. If any abnormal condition occurs, unplug the unit, allow it to cool, and return it for repair to an authorized service representative only. No repairs should be attempted by the consumer.

### CAUTION

NEVER allow the power supply cord to be pulled, twisted, or severely bent. Never wrap the cord tightly around the appliance. Damage will occur at the high flex point of entry into the appliance, causing it to rupture and short circuit. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

### STORAGE

When not in use, your appliance is easy to store. Allow appliance to cool, then simply store out of reach of children in a safe, dry location. Do not jerk or strain cord at plug connections. Do not wrap the line cord around the appliance. Allow the cord to hang or lie loose and straight at the point of entry into the appliance.

18. This appliance is not a toy. Keep away from children.
19. Do not use with a voltage converter.

## SAVE THESE INSTRUCTIONS OPERATING INSTRUCTIONS

This curling iron is professional and is not intended for household use. Use on Alternating Current (60 hertz) only. This unit is designed to be operated at 125V AC.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

**NOTE: DO NOT USE THIS STYLING APPLIANCE ON HAIR EXTENSIONS.**

13. Do not use an extension cord with this appliance.
14. Do not touch hot surfaces of the appliance. Use handles or knobs.
15. Do not attempt to touch the housing of your appliance near the barrel, as it is hot when in use.
16. Do not leave the appliance unattended while it is plugged in or in use.
17. Allow the appliance to cool before storing.

**WARNING:  
IF YOU THINK  
THE POWER IS OFF  
WHEN THE SWITCH  
IS OFF,  
YOU'RE WRONG.**

### KEEP AWAY FROM WATER

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

### ALWAYS UNPLUG SMALL APPLIANCES

### TO CURL HAIR

Hair should be clean and completely dried before using the curling iron. Plug the iron into an electrical outlet. Turn on unit. The Power/Low 285°F (140°C) setting will become illuminated. Allow unit to heat up for 30 seconds.

**WARNING: The curling iron's tourmaline ceramic-coated barrel will get very hot within a few seconds and should not be placed in contact with the skin after the curling iron has been turned on.**

### INSTANT HEAT TECHNOLOGY

The iron's unique 5 high heat temperature settings and Instant Heat technology provide styling versatility for all hair types. If you have fine hair, a low temperature will provide the best results. If you have thick, wavy or hard-to-curl hair, keep the heat setting on high. You can vary the iron's temperature according to your particular need!

#### Temperature Setting Guide

LED TEMP. CONTROL	HAIR TYPE
Power/Low 285°F (140°C)	Delicate, thin, easy-to-curl hair
Medium 310°F (155°C)	Average-to-thick or treated hair
Med-High 340°F (170°C)	Thick or wavy hair
High/Max 365°F - 400°F (185°C-205°C)	Hard-to-curl hair

## LIMITED FIVE YEAR WARRANTY (U.S. AND CANADA ONLY)

Conair will repair or replace (at our option) your unit free of charge for 60 months from the date of purchase if the appliance is defective in workmanship or materials.

To obtain service under this warranty, return the defective product to the service centre listed below, together with your purchase receipt.

In the absence of a purchase receipt, the warranty period shall be 60 months from the date of manufacture.

**ANY IMPLIED WARRANTIES, OBLIGATIONS, OR LIABILITIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE 60-MONTH DURATION OF THIS WRITTEN, LIMITED WARRANTY.**

**IN NO EVENT SHALL CONAIR BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER.**

This warranty gives you specific legal rights, and you may also have other rights, which vary from province to province.

**Due to continued product enhancements, the product featured may differ slightly from the actual product purchased.**

### STYLING WITH THE NEW TOURMALINE CERAMIC EASY-GLIDE BARREL

The barrel of your new curling iron has a tourmaline ceramic easy-glide surface, the newest technology. This means it's not only simpler to clean off styling product residue, etc., after each use, but you'll find that hair glides easily over the surface of the barrel as you're curling. The tourmaline ceramic surface also helps smooth down flyaways and frizzies. It evenly distributes heat so that the style you create has a salon-perfect, silky smooth, shining finish. Hair also slips right through the barrel after it's curled.

The new Tourmaline Ceramic technology is a pleasure to work with and makes styling your hair easier and the results more professional.

**Never leave your curling iron on and unattended. However, should you fail to turn the iron off, it will shut itself off automatically within 60 minutes.**

### Instruction & Styling Guide

For your safety and continued enjoyment of this product, always read the instruction book carefully before using.

Model CD106BLC

### USING INSTANT HEAT, THE 5 HIGH HEAT TEMPERATURE SETTINGS & UNIFORM HEAT RECOVERY SYSTEM

This styling iron features a ceramic heater that maintains constant temperature during use for precision styling.

This Instant Heat technology has 5 high heat temperature settings. There is a temperature range that's gentle and safe for every type of hair, from the finest to the curliest and most resistant, and helps you create the look you want. And that's not all. Conair's professional salon standards of engineering provide you with a uniform and improved heat recovery system that maintains the iron at constant temperatures. There is a constant surge of power to ensure that heat is continuously and quickly delivered for optimal styling results, unlike other units, which lose heat during use. This provides consistent styling power so that every strand of your hair is set with the same level of heat and comes out the same way for a perfect finish.
