OPERATING INSTRUCTIONS

BEFORE USE

Prior to initial use, test trimmer on small area of arm or leg. If any signs of allergic reaction or sensitivity occur, discontinue use. Do not use trimmer on ultra-sensitive or irritated skin. Keep out of reach of children.

TO OPERATE TRIMMER

This trimmer comes with two trimming blades. The larger blade can be used to trim body hair and eyebrows. The smaller blade is ideal for detailing.

It also comes with a comb attachment that helps you achieve an even cut when you do not want to completely remove the hair. The comb attachment has two sides: the long tooth is for body hair and the short tooth is for eyebrow trimming. Aligning the indicator with the L mark on the comb leaves hair longer, while aligning with S mark leaves hair shorter.

To use the comb attachment, be sure the unit is in the OFF position and slide the comb over the trimming blades. Make sure that the teeth of the comb are facing in the same direction as the trimming blade and that the top of the comb is even with the top of the trimmer (see Fig. 1).

If you want to completely remove hair, use the trimmer without the comb attachment. To operate the trimmer, slide the ON switch towards the trimming blades. When you

are finished trimming, slide the ON switch away from the blades.

To store the trimmer, slide the comb attachment cover over the trimming blades. Be sure to align triangle sign on the comb attachment with indicator on the trimmer housing (see Fig. 2). Then slide the protective cap over the comb attachment so that the triangle sign on protective cap aligns with the triangle sign on the handle tube (see Fig. 3).

TRIMMING TIPS

1. Place the trimmer at a slight right angle to the skin and trim in the direction of hair growth.
2. Continue trimming in the direction of growth. Be careful not to apply excess pressure to the blade. This may damage the blade, and can result in injury to the skin during trimming.
3. Pull the skin firmly with one hand during the trimming process to ensure the closest possible shave.

REPLACING THE BATTERY

To replace battery, remove the lower housing and remove/replace battery and reassemble to cover housing. Dispose of battery properly after use. Do not incinerate.

1. Be sure appliance is off, remove the protective cap and then hold the upper part of the trimmer firmly and pull off battery cover.
2. Insert 1 AAA battery. Pay close attention, making sure that the battery is inserted in the correct direction (+ / - poles). If you expect that the trimmer will go unused for

SENSITIVITY AND CAUTIONS SPECIAL CAUTIONS FOR DELICATE AREAS

The True Glow™ Glam Facial Brush and Eye Massager is a face and body cleansing device that is intended to help you get clean and healthy-looking skin. The True Glow™ Glam Facial Brush and Eye Massager is not a medical device and is not intended to be used to treat any medical conditions such as acne.

If you are under a doctor's care for any skin condition or if you think you have very sensitive skin, please consult your physician before use. We recommend not sharing the brush heads; each user should have their own brush head.

Do not use with exfoliation creams with rough or jagged particles.

Removing makeup can cause the brush head to discolor. This will not affect performance and the brush head can be used for the entire recommended life of 90 days.

If you experience any pain or discomfort during use, stop using and consult your physician.

Moisten your face and apply cleanser. Also apply a small amount of cleanser to the moistened brush head. Do not apply pressure with the brush to the face; let the oscillation perform the cleansing. When finished, rinse with water and dry skin with a clean towel.
