If you are under a doctor's care for any skin condition or if you think you have very sensitive skin, please consult your physician before use.

We recommend starting on the LOW setting and increasing speed to HIGH setting depending on how your skin reacts to treatment. If rash or irritation occurs, stop use.

We recommend not sharing the brush heads; each user should have their own brush head.

Do not use with exfoliation creams with rough or jagged particles.

Removing makeup can cause the brush head to discolor. This will not affect performance and the brush head can be used for the entire recommended life of 90 days.

If you experience any pain or discomfort during use, stop using and consult your physician.

Moisten your face and apply cleanser. Also apply a small amount of cleanser to the moistened brush head. Do not apply pressure with the brush to the face; let the oscillation perform the cleansing. When finished, rinse with water and dry skin with a clean towel.
